

SHUDE CHEN

陳淑德 (チンシュクトク)

chenshude31@gmail.com | [Website](#) | [Google Scholar](#) | [GitHub](#) | [LinkedIn](#)

RESEARCH INTERESTS

Machine Learning, Gaussian Process Regression, Time-Series Forecasting, Anomaly Detection, Multivariate Data Analysis, Network Traffic Analysis, and Model Evaluation.

CURRENT POSITIONS

Systems Engineer, NSSOL Okinawa

Apr. 2026 – Present

NSSOL Business Division. Working on enterprise platforms, ServiceNow Administrator, AI agent and AI-assisted workflow automation.

Visiting Researcher, University of the Ryukyus

Oct. 2025 – Present

Faculty of Engineering. Researching the application of sparse modeling to societal challenges and conducting related simulations.

EDUCATION

Master of Engineering, University of the Ryukyus

Apr. 2024 – Sep. 2025

Intelligent Information Program, Graduate School of Engineering and Science. Completed the program early.

Master's thesis: *Network Traffic Bandwidth Prediction and Anomaly Detection Using Multi-Output Gaussian Processes*.

Bachelor of Engineering, University of the Ryukyus

Apr. 2020 – Mar. 2024

Intelligent Information Course, Faculty of Engineering.

Completed the Global Shinryo Minor Program.

Bachelor's thesis: *Improving accuracy of network bandwidth prediction using multi-channel time series data*.

RESEARCH AND PROFESSIONAL EXPERIENCE

Teaching Assistant, University of the Ryukyus

Oct. 2024 – Sep. 2025

Supported undergraduate courses and student learning activities.

Technical Consultant, Information Technology Center

May 2024 – Sep. 2025

University of the Ryukyus. Provided technical support related to information systems and networks.

Research Intern, Okinawa Institute of Science and Technology (OIST)

Aug 2024 – Oct. 2024

Supported data processing for lower-limb exoskeleton rehabilitation robotics research.

Student Tutor, University of the Ryukyus

Jul. 2022 – Sep. 2025

Supported international students in their academic activities.

AWARDS

Best Presentation Award, IEEE ICICSP 2024

2024

Awarded for the presentation of research on multi-channel Gaussian process regression for network bandwidth prediction.

TECHNICAL SKILLS

Programming	Python; JavaScript; C/C++; R; HTML/CSS
Machine Learning & Data Analysis	Gaussian Process Regression; Time-Series Forecasting; Anomaly Detection; Multivariate Data Analysis; Network Traffic Analysis; Model Evaluation
Libraries & Frameworks	PyTorch; GPyTorch; scikit-learn; NumPy; pandas; Matplotlib
Platforms & Tools	ServiceNow; Git/GitHub; Jupyter Notebook; Google Colab; LaTeX
Parallel Computing	CUDA; SYCL
Enterprise Systems	SAP

LANGUAGES

Chinese	Native
Japanese	Professional Working Proficiency (JLPT N1, 2024)
English	Working Proficiency (TOEIC L&R 720, 2024)
